## Voxelgrids

**Vertical:** Healthcare  
**Technology:** AI, Computer vision

## Wobot Intelligence

**Vertical:** Food Services, Retail, and Industrial  
**Technology:** AI, Computer vision

# Glossary Terms

Sl.No.	Startup Name	Product Name	Product Brief	Website
1.	Acceleron Labs	MDC	Acceleron Labs' MDC with software defined mini data center features enables true HCI (Hyper Converged Infrastructure) solutions for enterprise customers. MDC with its low latency network, high bandwidth backbone enables virtualized and distributed acceleration. MDC system accelerates storage, server and network performance rack-wise or box-wise.	<a href="http://www.acceleronlabs.com/">http://www.acceleronlabs.com/</a>
2.	Addverb Technologies	Zippy Dynamo Quadron Co-bots	Industrial Automation provider focusing on Robotics applications for Industrial usage, Warehouse Automation Technologies & Industrial Internet of things (IIOT).	<a href="https://addverb.com/">https://addverb.com/</a>
3.	Ariano Instruments	Ariano K2	Music Keyboards have an age-old problem. They have a set of keys, each plays a particular note. And unlike acoustic instruments like guitar, violins etc, it's not possible to shape a note after it's played. Simple actions like bending a string in guitar, or continuous travel between notes in violin, or blowing air harder into a flute, are missing. Ariano is solving exactly this and makes the keyboard more expressive	<a href="https://www.ariano.in/">https://www.ariano.in/</a>
4.	Asquared IoT	Equilips 4.0	Equilips 4.0 is an edge computing device that uses real-time sound analytics techniques to identify the sounds and calculate performance and productivity parameters of Industrial machinery	<a href="http://www.asquared.ai">www.asquared.ai</a>
5.	Camcom	Camcom	Enterprise defect and damage assessment platform built on a computer vision stack already in production with market leaders in the automotive, supply chain and bottling industries in India. Deployed using mobile phone cameras and industrial rigs (where required) and hence immensely scalable, the platform is vertical agnostic and takes subjectivity out of the QC process.	<a href="http://www.camcom.ai">www.camcom.ai</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
6.	Cleanslate Technologies	inLog, SecureOps	Reduce operating costs and boost productivity with location intelligence from our proprietary real time location systems	<a href="https://www.cleanslatetechnologies.com/">https://www.cleanslatetechnologies.com/</a>
7.	Constems AI Systems	BoVi-AI & IRA	AI based Vision Inspection Platform; AI with infinite Vision	<a href="http://www.constems-ai.com">www.constems-ai.com</a>
8.	Cron Systems	SenseEdge	CRON Systems is a leading provider of high-performance, sensing products and perception software that brings vision to the UAVs, automobiles, mapping, security and general surveillance and other industries to enhance situational awareness.	<a href="http://www.cronai.ai">www.cronai.ai</a>
9.	Cyclops MedTech	BalanceEye and BrainEye	Eye tracking and deep learning based diagnostic and screening solutions for Neurological diseases with both clinical and telemedicine use cases	<a href="http://www.cyclopsmedtech.com">www.cyclopsmedtech.com</a>
10.	CynLr	CynLr	CynLr is a visual object intelligence platform that enables industrial robotic arms to see, understand and manipulate any object in random unstructured environments.	<a href="http://www.cynlr.com">www.cynlr.com</a>
11.	Dave.Ai	Dave Ai	Dave.ai is an AI platform that helps bring the power of online to offline brands. Dave helps these brands create Virtual/Pop Up stores with a sales avatar for remote/online product discovery and In-Store Personalisation using kiosks or VR. Thus converting every marketing interaction into a sales opportunity. The patent pending platform combines four layers of technology to build a virtual avatar - Speech & NLP, Facial Detection, Real time 3D Rendering and a recommender system.	<a href="http://www.iamdave.ai">www.iamdave.ai</a>
12.	DeepSight AI Labs	Super Secure	A Smart Video Surveillance based on advanced Artificial Intelligence and Deep Learning technologies. SuperSecure+ adds intelligence to existing or new CCTV cameras for the physical banking based threats namely human intrusion, people with helmets, masks, weapons, face recognition.	<a href="https://deepsightlabs.com/">https://deepsightlabs.com/</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
13.	DragonFruit	Dragonfruit Client, Cloud, Split AI	Dragonfruit is the industry's first petabyte-scale hybrid video analytics solution, powered by cutting-edge AI infrastructure and models. Our mission is to democratise AI by lowering the barrier of entry and providing innovative, flexible solutions to solve pressing needs. One of Dragonfruit's major focus areas is Law Enforcement and Physical Security.	<a href="https://dragonfruit.ai/">https://dragonfruit.ai/</a>
14.	Eder labs	Fluid	We make AI deployments lighter and effective while ensuring data / IP privacy, without requiring data to move from source. Our product, Fluid, combines 'federated learning' and 'confidential computing' to protect both, data and model IPs.	<a href="http://www.eder.io">www.eder.io</a>
15.	Entropik Tech	AffectLab	Entropik Tech's proprietary multi-modal emotion recognition technologies combined with AI helps brands measure the cognitive and emotional responses of consumers to their content and product experiences. Turning emotions into actionable insights, Entropik helps them optimize brand experience journeys and solve real business problems across industries	<a href="https://www.entropiktech.com/">https://www.entropiktech.com/</a>
16.	HaystackAnalytics	OmegaTB	Combating drug resistance has no Plan B. It must be done, today. The most critical step towards that is to stop using antibiotics where not required, as evinced by complete and comprehensive drug susceptibility profiling. Genomics based DST is the only technology, which is complete, and scalable for performing DST on Day Zero.	<a href="http://www.haystackanalytics.in">www.haystackanalytics.in</a>
17.	Infilect Technologies	Infiviz	Infilect digitizes every shelf in every store every day, answers why and how of out of stock and over stock problems. The solution specifically measures the degree of on shelf availability of every SKU and share of shelf of every product-brand. This helps retails brands get real-time data on out of stock and over stock on the retail shelves in order to take appropriate merchandising actions.	<a href="http://www.infilect.com">www.infilect.com</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
18.	Insightzz (MLIT18)	Insightzz	Computer vision and artificial intelligence based applied intelligence system to automate visual quality inspection	<a href="https://insightzz.com">https://insightzz.com</a>
19.	Intangles	Intangles	Data-driven digital twin and IoT-enabled solutions for vehicle monitoring and fleet management	<a href="https://www.intangles.ai">https://www.intangles.ai</a>
20.	Jidoka	TIGRIS HURON MIYAKE	Jidoka, a principle which advocates “intelligent automation”, is at the heart of our products where we combine Artificial Intelligence with Industry Automation & Machine Vision to deliver cutting edge solutions. We specialize in automating detection of visual defects – a process that is highly subjective by nature across industries. Experience the most comprehensive solution – on your road to achieving Jidoka.	<a href="https://jidoka-tech.com/">https://jidoka-tech.com/</a>
21.	Letsving	Letsving	Unified Video Conference Platform For Hybrid Work that works with Any OEM Camera. Any Meeting Platform	<a href="https://www.letsving.com">https://www.letsving.com</a>
22.	LivNSense	iSense4i™ CCR4.0 WELDSENSE® ViCAS™ WiSH	LivNSense is a pioneering Industrial IoT & AI Platform led venture that serves the manufacturing and production industries, with a primary focus on continuous manufacturing and discrete manufacturing Industry.	<a href="https://livnsense.com/">https://livnsense.com/</a>
23.	ORBO.AI	ORBO AI	A deep learning and computer vision-based platform that is enhancing low-resolution videos to 1080p or 4K video formats in real-time.	<a href="http://www.orbo.ai">www.orbo.ai</a>
24.	QNu Labs	QKD, QRNG, PQC	QuNu Labs primary product range deals with Quantum Key Distribution (QKD). QKD solves the problem of secure key distribution by allowing the exchange of a cryptographic key between two remote parties through an exchange of encoded quantum bits (qubits), which are unhackable, by virtue of the laws of quantum physics	<a href="http://www.qnulabs.com">www.qnulabs.com</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
25.	Qualitas Technologies	EagleEye® Camera EagleEye® Cloud EagleEye® Egde	Qualitas EagleEye inspection system can be used in any type of industry where quality control is necessary. Data collected by this system helps to improve the efficiency in the production line. This inspection system provides manufacturing companies to conduct 100 % inspection of parts or components for quality control purposes. If you want to improve the quality and efficiency of your industry then this inspection system is a better solution.	<a href="https://qualitastech.com/">https://qualitastech.com/</a>
26.	Qure.AI	Qxr, QER	Qure.ai is an AI-based clinical decision support tool for analyzing diagnostic images and giving insight to the doctor. Its radiology solution can diagnose disease from CT Scans, MRIs and X-rays as well as outline and quantify regions of interest such as tumors or lung disease patterns to make healthcare more accessible and affordable.	<a href="https://www.quire.ai/">https://www.quire.ai/</a>
27.	Senseforth	A.Ware	Conversational AI and chatbot solutions built by Senseforth address queries, resolve issues, perform tasks, make product recommendations, and also provide meaningful insights.	<a href="https://www.senseforth.ai">https://www.senseforth.ai</a>
28.	Sensovision	QualViz, VizSort	SensoVision is an AI Tech company working in the field of Quality Inspection for Manufacturing Units. SensoVision uses AI and Computer Vision with custom Mechanical and Optical Engineering to make end to end solutions. These solutions are capable of inspecting parts ranging from screws to big automobiles in an automated manner. By staying true to its vision of Taking research into Product, SensoVision is transforming the product quality Inspection in various industries to take it a notch above. While currently focused on Machine vision, the roadmap includes collecting large amount of data points to evolve a deep learning model	<a href="http://www.sensoviz.com">www.sensoviz.com</a>
29.	Simyog	Compliance-Scope	System-level simulations for automobile designers to catch EMI and EMC issues early on in the design cycle, thereby reducing the need to build and test several prototypes to check the components' resistance to EMI	<a href="http://www.simyog.com">www.simyog.com</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
30.	Smart Ship Hub	Smart Ship© Hub Digital Platform  Smart Ship© IOT Services	Smart Ship Hub digital platform provides specific on-demand cloud services for end to end maritime ecosystem. supports Commercial vessels, Specialized vessels, Naval vessels, Offshore & Fishing vessels in ensuring optimum vessel performance, lesser downtime, emissions & operational compliance while making vessels safer & reliable. Provides the status of the fleet, business dashboard which captures visibility on the utilization, maritime personnel, inspection, checklist, etc.  Enabling ship owners and managers to bring in substantial operational as well as cost benefits in the business. Smart Ship© IoT helps through setting up continuous tracking, easy port operations, material handling, preventive maintenance of ships, smart sensors and gateways.	<a href="https://smartshiphub.com">https://smartshiphub.com</a>
31.	Staqu	JARVIS™ PAIS SIAN	AI startup in the security and enterprise big data analytics domain, with facial recognition technology and intelligent monitoring of objects, crowd and perimeter monitoring with real-time alerts to significantly reduce the time for relevant actions.	<a href="http://www.staqu.com">http://www.staqu.com</a>
32.	Statwig	Statwig	Statwig leverages blockchain and connected sensors to provide real-time, tamper-proof and end-to-end tracking of the complete life cycle of the product as it moves along the cold chain, especially vaccine delivery.	<a href="http://www.statwig.com">www.statwig.com</a>
33.	SwitchOn	SwitchOn	SwitchOn leverage technologies such as Industrial IoT and Machine learning to digitize critical equipment for industries by creating Digital Twins of equipment to help customers reduce unplanned downtime, improve operational efficiency and maximize asset utilization.	<a href="http://switchon.io/">http://switchon.io/</a>
34.	TenXer Technologies		Semiconductor Companies engage with their customers the way they did decades ago - with physical Evaluation Modules. TenXer's Virtual Lab enables them to move their ICs on the cloud. Users can access the IC set up using a browser and evaluate virtually, increasing the effectiveness.	<a href="http://www.tenxertech.com">www.tenxertech.com</a>

Sl.No.	Startup Name	Product Name	Product Brief	Website
35.	ToneTag	Tonetag	ToneTag solution enables data communication and engagement services over sound waves. This is transforming retail ecosystem with features like real-time payment acknowledgement, proximity-based services & loyalty solutions	<a href="https://www.tonetag.com">https://www.tonetag.com</a>
36.	Tranzmeo IT Solutions	T-Connect	Tranzmeo's T-Connect is an intelligent High-performance System, which is designed to redefine the anomaly & Intrusion detection in Oil & Gas pipelines with the help of optical sensing technology and deep learning	<a href="http://www.tranzmeo.com">www.tranzmeo.com</a>
37.	Unbox Robotics	UnboxRobotics	Unbox Robotics is building software-defined robotics platforms to enable logistics players to automate and radically improve their operations on-demand in a limited footprint and capital. We apply proprietary Swarm Intelligence and ML algorithms inspired by nature to re-define the way companies' sort and ship orders	<a href="http://www.unboxrobotics.com">www.unboxrobotics.com</a>
38.	Vacus Tech		Vacus Tech is a Wireless Indoor Positioning Company with patented technology for automated configurable fencing, precise positioning and accounting of assets and people with an accuracy of 30 cm.	<a href="http://www.vacustech.com">www.vacustech.com</a>
39.	Voxelgrids	Voxelgrids MRI	Voxelgrids is an Magnetic Resonance Imaging technology startup, building Lightweight, Ultra-Fast, Next-Generation Magnetic Resonance Imaging (MRI) Scanners	<a href="https://www.voxelgrids.com">https://www.voxelgrids.com</a>
40.	Wobot Intelligence	Wobot.ai	Wobot Intelligence enables vision-based process compliance. Wobot's deep learning computer vision tool plugs into existing cameras and helps in monitoring industry specific SOPs. The AI identifies people, their activities, and objects. Wobot has helped organizations in Food, Retail, and Manufacturing to reduce the cost of monitoring employees, risk of Non-compliance, pilferage, and improve productivity.	<a href="http://www.wobot.ai">www.wobot.ai</a>

The Intel logo is centered on the page. It features the word "intel" in a white, lowercase, sans-serif font. A small blue square is positioned above the letter "i". To the right of the word "intel" is a registered trademark symbol (®). The background is a dark blue, abstract pattern of glowing circuit traces and nodes, creating a sense of depth and technology.

intel®
